

PULSA Viva

vegetarian · vegan · delicious

dear guest

We take our responsibility seriously and contribute to sustainability in various sections. Our new chef, Thomas Huber, has been inspired by the vegan and vegetarian cuisine and has created the PULSA VIVA dishes with his team. All dishes, from the broth, dumplings and tortelli, are homemade. Of course, we also like to eat meat or fish from time to time, so you will also find a selection of regional meat products on our menu.

It is definitely worth trying the new PULSA VIVA creations.
